

Wisconsin FCCLA 2010 STAR Events Overview

Wisconsin FCCLA . . . Move Beyond The Label . . . The 2010 STAR Events Season Is Ready To Begin!

2010 National Events

At the 2009 NLC three additional national events were introduced:

- **Environmental Ambassador**
- **Fashion Design**
- **Food Product Development.**

All three new events will be offered for the first time in Wisconsin. Members will participate in new events at the regional level as a means to become eligible to compete at the 2010 SLC. Event guidelines and rubrics for the new events will be on the national FCCLA website this autumn. **Please note, the titles of these events were in “draft form” at NLC so watch for finalized events in the National STAR Events Manual to appear on the national association website during September.**

2010 State Events

One state event, Fashion/Housing Display, is being retired. No new state events for 2010.

Test content for **Advanced and Basic Food Production, Terminology and Mathematics** will be expanded in 2010. The “Basic” test will include sanitation, kitchen utensils, and food storage – although 70% of the questions will focus on terminology and mathematics. The “Advanced” test will focus on Culinary Arts. A study guide will be provided online for each of these tests along with a resource list to assist members with their preparations.

The **Outstanding Chapter Member Portfolio** will continue as a STAR Event in 2010. Members will bring their portfolio to SLC for a team of evaluators to assess. Members who register an entry in the Outstanding Chapter Member Portfolio Event may also enter one other STAR Event for 2009-2010. **Please Note: Outstanding Chapter Member Portfolios from the same chapter that have identical content, or close to it, will automatically earn a bronze medal at SLC.**

Recipes for the **Pastries & Baked Goods Event** will be posted on the state website in the fall. All members may practice using these recipes in preparation for both regional and state level competitions. Recipes for both competitions will be selected from this practice set.

STAR Events Regional Expectations

Each regional planning committee will comply with the Regional STAR Events Expectations. This is a separate document located on the WI FCCLA website. The goal of these expectations is greater consistency between the regions. The following statements are examples of regional expectations.

- All chapters planning on participating in 2010 STAR Events in Wisconsin must affiliate by December 1, 2009 – this initial list of members may be followed up by additional affiliation(s).

- In the situation when there is one entry in an event it will be evaluated by a team of evaluators at the regional meeting.
- All new events will be run at the regional level. Members will receive feedback and automatically be eligible for SLC.

2010 SLC STAR Events

The following STAR Events will be evaluated the first night of SLC between 5:00 and 9:00 p.m. Please ensure that participants in these events arrive in time for their scheduled presentation or test. Time schedules will be sent out prior to SLC. Events include:

- Advanced Food Production, Terminology & Mathematics
- Basic Food Production, Terminology & Mathematics
- Career Investigation
- Chapter Service Project Manual
- Chapter Showcase Manual
- Teach and Train

THIS IS A TENTATIVE LIST AND MAY CHANGE WHEN NUMBER OF ENTRIES IS DETERMINED FOR SLC.

FCCLA 65th Anniversary Celebration

Join the WI FCCLA Foundation in recognizing individuals / teams that have made significant contributions to the association. Everyone is invited to participate in the “\$65. for 65” Celebration. See state website for nomination form and brochure. Nominees will be recognized at 2010 SLC. The proceeds from this initiative will be used to help fund the 2010 STAR Events.
